PROFESSIONAL SUMMARY

Highly motivated Software Engineering student (9.33 CGPA) with practical experience in full-stack development, Machine Learning and cloud computing. Seeking to apply proven skills in Python, Java, and AWS to design scalable cloud architectures and contribute to cutting-edge, collaborative projects.

EDUCATION

Bachelor of Technology, Information Technology, Vidya Jyothi Institute of Technology Expected 2026

CGPA : 9.33/10.0

Key Achievement: Smart India Hackathon (SIH) 2024 round 2 Participant

Class 12th, Sri Chaitanya Junior College

2020-2022

Percentage : 97.2

Class 10th, Bhashyam High School

2020

CGPA : 10.0/10.0

SKILLS

Technical Skills: C, Java, Python, React, Node.js, JavaScript, MySQL, Full Stack Development, AWS services, Salesforce, Git, DSA

Certifications: AWS Cloud Foundations, AWS Cloud Architect, Cisco Network Technician, Programming fundamentals in Python and Java, Qlik Sense Business Analyst

EXPERIENCE

Salesforce Developer Intern

May 2025-July 2025

Salesforce - Smartbridge.

Virtual

- Mastered Salesforce developer fundamentals to automate business workflows and customize the user interface.
- Earned the Apex Specialist Superbadge, demonstrating practical mastery of the Apex programming language.

Managed Services Launchpad Trainee

Jan 2025-July 2025

PWC.

Virtual

- Developed a comprehensive foundation in IT infrastructure, cloud computing principles, data pipelines, and CI/CD automation practices.
- Applied and strengthened core programming logic for application development and database management systems.

PROJECTS

Bridging Brands and Creators Using AI

Tech Stack: Vue.js, HTML, CSS, Flask, SQL, Gemini API.

- Engineered a full-stack digital platform connecting brands with social media influencers for targeted advertising campaigns. Implemented role-based authentication for Admins, Sponsors, and Influencers.
- Designed dynamic data visualization dashboards using Matplotlib and Streamlit to track campaign performance.
- Integrated a real-time chatbot using the Gemini API to provide 24/7 user assistance.

Data Visualization: Representing Information on Modern Web

Tech Stack: HTML, CSS, Python, Firebase

- Developed an interactive frontend using D3.js for dynamic and responsive visualization of large datasets.
- Utilized Pandas for complex data analysis and integrated Firebase to store user data for personalized analytics.
